Instructions to Access the System

1. There are two ways to access the Attendance and Early Alert System:
 - a. You may access the system by logging into my.scranton.edu and then clicking the Faculty Tab. A link “Attendance & Early Alert” will be in the list of links found below “Faculty Dashboard” as seen below.

- b. You can also find the system by going to my.scranton.edu and going to Self-Service and then to the Faculty tab (same place where you find Final and Midterm Grade links) to find the Attendance and Early Alert link as shown below:

2. You have successfully accessed the system when you reach the screen that will look like what you see below in the screenshot. See colorful icons for a description of what they identify.

← You may see multiple terms listed if you are teaching courses in both the regular terms AND special terms. In this screenshot, there is only one regular term showing

→ Below the term you will see the term date span, the date when the system opens, the attendance deadline date, and the last day to submit an early alert

⎓ Courses will only show up in the list on this main page if the courses are currently active in the term listed

← If you have not entered any attendance information or early alerts, “Not started” displays next to each course

Attendance & Alerts

The University collects student **Attendance** in order to remain compliant with federal regulations. Faculty are required to report students not in attendance.

You can also use this form to submit **Early Alert** notifications. Early Alert is a proactive, student-centered system of communication between faculty, staff and academic advisors that facilitates the identification of students who are not performing optimally in the academic setting in order to provide them with resources and support for success.

You can report Attendance and submit Early Alerts starting the second week of the term. You can access this form as many times as needed through the closing dates.

Instructions for Attendance Portion of System

1. The attendance portion of this system is **not for daily attendance**. This system is set up to indicate whether a student is attending your course OR if the student has never attended. The attendance portion of this system is to correct roster issues. Intermittent attendance from a student is something you submit as an **early alert**.
2. We ask that you complete the attendance portion of the system only once during the semester. Please also follow the guidance you receive from the Registrar Office.
3. When ready to complete the attendance portion of the system for a course, click the title of the course to access the roster from the main system page. You will see the following:
 - a. Course and Term info, and days you have left for attendance and early alerts
 - b. Your roster with **student photos**, names, and R numbers (blurred out in screenshot)
 - c. Two toggle switches: one for Attendance and the other for Early Alert. By default, a student displays as “Attending” and has “No Early Alert”.

The screenshot shows the 'STUDENT ATTENDANCE & EARLY ALERT' interface for the course 'COMM 210 (EPW) Logical/Rhetor Analysis'. The page header includes the University of Scranton logo and a 'Change Course' button circled in red. The course details section shows 'Fall 2021 / Full Term / CRN 10290' and a message: 'You've not yet recorded Attendance. You have 15 days left. Closing date is Mon Sep 20 | 43 days left to submit Early Alerts. Closing date is Mon Oct 18'. Below this is a list of student records, each with a blurred photo, name, and R number. Each record has two toggle switches: 'Attending' (which is currently selected) and 'No Early Alert'. At the bottom of the list is a purple button labeled 'Save Attendance & Early Alerts'.

4. As an example, let us say the first and third students in this list have never attended the course. When you click their Attendance toggle switches the toggles turns to gray and indicates “Not Attending” as shown below. Click the “Submit Attendance & Early Alerts” button to save.

This screenshot shows the same student list as the previous image, but with the 'Attending' toggle for the first and third students changed to 'Not Attending' (grayed out). The second student remains 'Attending'. The 'Save Attendance & Early Alerts' button is still visible at the bottom.

- After you click the save button, the page will indicate changes were saved in a colorful banner at the top of the page.
- To get back to the main system screen, click the “Change Courses” link at the top of the roster page (shown inside the red oval in previous screenshot). The main system page now looks like the following below in the screenshot. You will see that the screen indicates, “2 Not Attending” (because that is how many I chose in this example) and that no early alerts were issued.
- Repeat this process for your other courses and only choose “Not Attending” for those students who have never attended the course (or in some cases came on the first day and never again).

2 items selected

- Other: (explain in comments)
- Poor performance on exam(s), paper(s), or other major class assignment(s)
- Poor performance on quiz(zes)
- Student is exhibiting nonacademic concerns
- Student is not prepared for nor engaged with material during class ✓
- Student is not submitting homework or other class assignments ✓
- Student seems to struggle with material and should consider a tutor
- Student's class punctuality and/or attendance is irregular ✓

Attending No Early Alert

Save Attendance & Early Alerts

- For any alert that does not fit in the categories in the drop down, please choose “Other (explain in comments)” and further explain in the comments box.
- Once you are finished entering any early alert comments and have chosen the type(s) of alert, you may repeat this process for other students.
- Click the “Submit Attendance and Early Alerts” button when finished. The page will indicate changes have been saved in a colorful banner at the top of the page. Click the “Change Course” link to get back to the main system screen.
- Once you click the save button, the student along with you will receive the email that is sent to the student’s academic advisor (give it some time to arrive in your inbox).** From this point, the academic advisor will contact the student.

9. The main system screen would look like the following if you entered one early alert and two students never attended your course in COMM 210.
